Objective

Passionate B.Tech Computer Science student (2024–2028) with a strong interest in Python, Backend Development, DevOps, and Artificial Intelligence. Seeking opportunities to apply my technical skills to real-world projects while continuously learning and building a strong foundation for professional growth.

Technical Skills

- **Programming Languages:** Python, JavaScript, TypeScript, SQL, HTML, CSS
- **Backend:** FastAPI, REST APIs
- **Containerization:** Docker, Docker Compose
- **Operating Systems:** Linux (Ubuntu), Windows
- **AI / ML:** PyTorch, Transformers, scikit-learn
- **Version Control:** Git, GitHub
- **Frontend:** React, Next.js, Tailwind CSS
- **Databases:** SQLite, MySQL
- **Python Libraries:** Pandas, NumPy, OpenCV, PyMuPDF
- **Other Tools:** VS Code, WSL, Docker Desktop

Certifications & Training

- **Python Programming** – Self Learning
- **Backend Development** – FastAPI & REST APIs
- **Docker** – Containerization & Deployment
- **Git & GitHub** – Version Control
- **Linux** – Ubuntu & WSL
- **AI / ML** – Python, PyTorch & Transformers

Projects

CODEazy – Learning & Notes Platform

Technologies: Python, FastAPI, SQLite, JavaScript, HTML, CSS, PyMuPDF

- Developed a learning platform with separate roles for students, teachers, and administrators.
- Built the backend using FastAPI with APIs for authentication, course management, notes, and PDF uploads.
- Implemented PDF text extraction using PyMuPDF to extract text blocks along with position, font, size, and formatting information.

Developer Portfolio Website

Technologies: Next.js, TypeScript, React, Tailwind CSS, Framer Motion, Three.js

- Developed an interactive developer portfolio using Next.js, React, TypeScript, and Tailwind CSS.
- Built sections for skills, projects, technology stack, profile information, resume, and contact details.
- Added animations and interactive visual effects using Framer Motion, GSAP, and Three.js.

Education

B.Tech — Computer Science Engineering | Modi Institute of Technology, Kota

Computer Science Engineering

Aug 2024 – May 2028
