Summary

Lazy coder and B.Tech CS student who'd rather automate a task than repeat it. Python and backend are my comfort zone, I'm leveling up in React and Next.js, and I use AI tools to ship fast. I pick things up quickly and I'd love to learn on a real team.

Technical Skills

- **Programming Languages:** Python, JavaScript, SQL
- **Web Development:** HTML, CSS, REST APIs
- **Backend:** FastAPI (Basics)
- **Databases:** SQLite, MySQL (Basics)
- **Python Libraries:** Requests, Pandas, NumPy, PyMuPDF
- **Desktop Development:** Python, pywebview
- **Version Control:** Git, GitHub
- **Containerization:** Docker (Basics)
- **Operating Systems:** Windows, Linux (Ubuntu/WSL)

Certifications & Training

- **Data Analyst Training**
- **Python Programming**
- **DevOps Internship**

Projects

SafeSteps – Women Safety Platform
Technologies: Python, FastAPI, SQLite, JavaScript, Leaflet.js, NLP

- Developed a safety web app with risk mapping, safer route comparison, and automated emergency workflows.
- Built FastAPI APIs and NLP-based complaint classification with SQLite storage.

CleanCord – Discord Server Manager
Technologies: Python, JavaScript, HTML, CSS, pywebview, Discord API

- Built a Windows desktop app to search, filter, categorize, and bulk-manage Discord servers.
- Implemented cleanup previews, owner protection, and JSON/CSV export.

GoodNight PC – Auto Shutdown Utility
Technologies: Python, Tkinter, JSON, Pytest

- Developed a Windows utility for scheduled power actions with pause, resume, and configurable timers.
- Implemented timer recovery, persistent settings, and safe test mode with automated tests.

MiningCraft – Minecraft Automation Framework
Technologies: Python, Networking, Protocol Handling

- Developed a Python framework for Minecraft Java Edition automation, focusing on connection handling and protocol communication.
- Established the foundation for mining, movement, and resource collection automation.

Education

B.Tech — Computer Science Engineering | ***Modi Institute of Technology, Kota*** Aug 2024 – May 2028
Computer Science Engineering
